## ABOUT

Already in his mid twenties Doobious can look back on a meteoric rise. As an open format DJ he took Switzerland by storm and attracted attention worldwide with his productions. Apart of releases on Mad Decent, Fool's Gold and Spinnin' Records, features on blogs such as Run The Trap, Hypetrak, Discobelle and Nesthq (OWSLA), his songs can be heard on BBC Radio 1 on a regular basis. Over 1 million streams on Spotify reinforce the quality of his work – for which he gets support from international heavyweights like Skrillex, Diplo or A-Trak. Proof that word of his technical skills has gotten around are several official remixes for Major Lazer, Pitbull, Chromeo or Haftbefehl. It seems there are no boundaries for the prodigy from Zurich!
