DJ FMC

ABOUT

DJ FMC is one of the most popular faces in the music scene in Norway. His performances are bursting with energy, authentic and likeable and his sets creative, versatile and customised. The northerner always controls his audience and either allows them to gently sway at company events, to circle their hips in the club or completely flip out at festivals. With all these characteristics it's not surprising that he won the national Red Bull 3style title in Norway twice. As a producer he is known under his real name "Sebastian Emes". Apart from countless remixes his last single "keep on" was streamed over 320'000 times on Spotify.
