JOHNNY ROXX

ABOUT

When describing Johnny Roxx one could lose oneself in superlatives. His unique mix of Open Format and Afrobeats make him one of the best club DJ's far beyond country borders. Someone with the pseudonym "Johnny Roxx" is of course not satisfied with that but is a gifted producer as well. His Shaggy "Boombastic" remix already reached over 4 million clicks on youtube and his single "Drummer Cat" landed on first place of the Beatport Reggae Charts for eight weeks. Even artists such as Skrillex, Major Lazer, DJ Snake or The Chans-mokers play his songs in their sets. In August 2015 he successfully launched his own record label "Flex Up Records".
